New privacy legislation

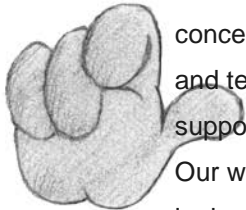

Dear Customer,

You probably have not missed it, at the end of May 2018 Europe will impose more stringent rules with regard to the management of personal data. This also requires some adjustment for us.

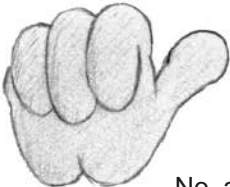

Which data do we keep?

To ensure that orders are processed smoothly, we keep certain information. Specifically, this concerns general customer data such as your name, address, VAT number, e-mail address and telephone number. In addition, we keep track of your purchases so that we can also support you appropriately after purchase.

Our website only keeps functional cookies. These are necessary in order to remember your login and to store your shopping cart and are stored on your own computer.

Do we share personal data with others?

No, absolutely not. Your personal data is only used internally and therefore in no way shared with others.

Do you wish to receive our information further?

We naturally hope that we can continue to inform you about new products and promotions in the future.

If you agree with this, you do not need to do anything else.

If you **do not** want this, it is sufficient to send us an e-mail with company name and e-mail address, so that we can immediately remove you from the mailing list.
